EDUCATION

Bachelor of Technology With Computer Science & Engineering Lucknow, Uttar Pradesh, India | Aug 2024
Babu Banarasi Das Institute of Technology and Management
Coursework: Data Structures and Algorithms; Operating Systems; Computer Security; Machine Learning;
Advanced Networking; Big Data Analytics

WORK EXPERIENCE

GDSC BBDITM CHAPTER | Cloud Computing Lead Lucknow, Uttar Pradesh, India | Jan 2022

- Mentored 120 students across 4 batches and taught Cloud Computing Platforms like **GCP**, Azure.
- Organized 3 championships and 6 events with Faculty, volunteers and sponsors.
- Lead & Managed a Cloud project implementing engineering principles led to a 15% increase in user engagement, Enhanced product quality and administered a web app store location for user data storage and real-time updates using cutting-edge solutions By Google Cloud Platform.

CODING NINJA ENTREPRENEUR | Mentor Developer Intern, India (Remote) | Oct 2022 – Jan 2023

- Teamed with 10 Ninja Ambassadors to Implement Strategic solutions to optimize processes and enhance productivity of students.
- Enhanced **lead management** efficiency by 25% through innovative strategies accomplishing student needs.
- Remarkable 30% increase in student admissions incorporating Social Media and event strategies.

BBDITM CSE. DEPT. | Placement Coordinator. Lucknow, India | July 2023 - Current

- Spreading Placement opportunities awareness among students of 5th, 6th, 7th and 8th semesters.
- Contributed to Student Coordinators to a growth of 21% among applications and in-campus interviews..

PROJECTS

BODY MASS INDEX CALCULATOR 📱 Technologies: Dart, Flutter

- Developed an Android/IOS application using Flutter within 24 hours that calculates the Body Mass Index (BMI) based on user inputs of Gender, height and weight.
- Providing instant feedback on the user's BMI category, such as underweight, normal weight, overweight, with automatic suggestions.
- Implemented 2 Activities with In-House packages and created custom packages to provide best results by Solving complex problems.
- Utilized Flutter's state management techniques to ensure (fully) responsive and efficient application behavior with 0 crash experience.

REAL TIME WEATHER APP 📱 Technologies: Dart, Flutter, OpenWeatherMap API

- Developed an Android/IOS app using Dart that inputs present/custom Location and gives weather results with suggestions with 100 requests per hour.
- Introduced APIs like OpenWeatherMap and generated optimized UI/UX across 2 activities for visual appeal.
- Spearheaded cutting-edge techniques Multithreading and Asynchronous Programming for improved performance and responses.

SKILLS

Languages: Java, C++, Python, C, Dart
Web Development: JavaScript, HTML,CSS
Technology: Git, GCP, Hadoop, Azure, Android Studio,Software Project Development
Databases: SQL
Technical & Soft: Project Management, Engineering Management, Accountability, Cooperative

CERTIFICATIONS & ACHIEVEMENTS

Professional Certification: IT Automation with Python, Google | Career Essentials in Generative AI, Microsoft And LinkedIn.
Nptel Certified.
